Comprehensive detail, including definitions of ratings, performance criteria, and explanations of status, is available on www.ed.sc.gov and www.eoc.sc.gov as well as school and school district websites.

Printed versions are available from school districts upon request.

REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Buford Elementary School began the year with a celebration of our previous year's successes and then took a serious look at areas identified as needs improvement. We used our PASS and MAP data to compare where we were previously to where we are now. Based on this data, we began to collaborate on ways to move our students above and beyond the expected growth.

The school targeted weaknesses within our school and classes by plotting students' progress on a data wall within our PLT (Professional Learning Team) room. We established RIT groups that taught students on their academic level based on MAP (Measures of Academic Progress) scores. We also held two different after school programs that focused on identified needs. One program used small group and individualized instruction while the other program met individual needs using the computer program, Study Island.

We began an intensive study of the newly state adopted Common Core State Standards (CCSS). We used outside sources, as well as, in house support staff to inform and engage our teachers in the implementation of these standards. All teachers in PreK-5th grades took part in this professional development and embraced it by offering suggestions and researching other districts to further their understanding of CCSS. Our kindergarten teachers began full implementation of the standards during the first semester. The first grade teachers began implementation during the second semester and plans are in place for second grade to fully implement the new standards at the beginning of next school year.

This school year we continued to put parent involvement as a priority in our school. We held Family Nights for the families of our present students and rising kindergarten students in order to make them aware of ways that they can help their child outside of the school. Parents were invited to conferences during the fall and spring semesters to get a face-to-face update of their child's progress. Parents are always offered the opportunity to volunteer, visit, call, e-mail, or eat lunch at school.

Celebrations of various types were held throughout the year to reward students for academic, social, and emotional successes. Our Super Reader program encourages and rewards students for reading each month. The Principal's Pal program recognizes one student from each class per six weeks for being a great student.

Our focus for the 2011-2012 school year has been to continue to work as a team with the parents, students and school community to raise the bar for our students and challenge them to meet their goals. No student was expected to do less than their personal best. As we end our final year with the school wide theme of T.E.A.M. (Together Everyone Achieves More), we see that teamwork is the essential piece to ensure the success of our students.

Sandra Jones-Izzard, Principal Joye Whitaker, School Improvement Council Chair
